- (1) SBE working on guidance for LBE's on how to deal with ICE at polling places
- (2) Voter registration applications (VRA) ordered by SBE for the LBEs were received with multiple formatting errors. The vendor is reprinting the VRAs, and we should be receiving them shortly.
- (3) SBE plans to have the new voting system approved by the Board of Public Works at one of their two June meetings.

- b) Next Meeting: April 23, 2026, hybrid at the SBE warehouse. LBEs will have the opportunity to see the new pollbooks for the first time and see the new drop box configuration.

2. We met with the transportation contractor on March 26th, to finalize the delivery schedule of the Early Voting and Election Day supplies, as well as the ballot drop box delivery schedule.
3. We met with the state provided trainers on April 10th. They will be assisting with election judge training beginning this week.
4. We met with Rob Rollins and Jeffrey Proulx of Washington County Public Schools on April 13, 2026. Four schools being used as polling places (Boonsboro High, Lincolnshire Elementary, Smithsburg Elementary, and Smithsburg Middle) will be undergoing major HVAC renovation projects during the June 23rd Primary Election date.

C. Legislative Update: SINE DIE Monday, April 13, 2026

1. Passed to the Governor:

- a) SB0100/HB0263 – Early Voting Centers-Bus Stops. Takes effect January 1, 2027.
- b) HB0621 – Board Counsels no longer need to be residents of the county. Emergency Bill
- c) HB1001 – Authority at Polling Places, Early Voting Centers, and Counting Centers. Includes the State Administrator, Deputy State Administrator, and local election director. Also requires challengers and watchers to submit forms to the local

board ahead of Early Voting and Election Day. Takes effect June 1, 2026.

d) SB0029 – Petitions and Ballot Questions-Plain Language. Takes effect June 1, 2026.

e) SB0949 – “Trigger” bill to bifurcate our canvassing process between federal and state/local contests, depending on timeliness. Emergency Bill

FOR IMMEDIATE RELEASE

Maryland State Administrator Addresses President Donald Trump's Executive Order

ANNAPOLIS (April 3, 2026) - The Maryland State Administrator of Elections Jared DeMarinis today addressed President Donald Trump's latest [executive order](#), reiterating his mission to uphold State and federal laws in the administration of the election and that Maryland's elections are safe, secure, and transparent.

On March 31, 2026, President Trump signed an Executive Order titled "Ensuring Citizenship Verification and Integrity in Federal Elections". This order outlined requirements for the U.S. Department of Homeland Security (DHS) to compile a State Citizenship List of individuals who are U.S. citizens, according to standards set forth by the executive branch using SAVE, will be 18 years of age or older at the time of an upcoming election and maintain a residence in the state. The order also requires The United States Postal Service (USPS) to begin rulemaking for mail-in ballots procedures by May 30, 2026 to include provisions such as the USPS must provide the state with a Mail-In and Absentee Participation List, the USPS will not transmit mail-in ballots from any individual not on the list, and other requirements for mail-in ballot processing.

Before any misinformation or disinformation takes hold, State Administrator, Jared DeMarinis, has released the following statement:

"I am disheartened by the threatening tone and bullying tactics of the executive order directed against me, as the State chief election official, for administering Maryland elections in accordance with State and federal laws. I will not be deterred or intimidated from protecting, ensuring, and advocating for voter's rights. The cavalier and irresponsible statement regarding the threat of arrest and prosecution has the end goal only to create fear in election officials, disenfranchise voters, sow the seeds of distrust in the election administration and cast unfounded doubt on the election results.

Neither the President nor the Secretary of the DHS has constitutional or statutory authority to take over Maryland's elections and electoral processes. As we have stated before, the United States Constitution is clear: the authority to administer elections predominately resides with the States. The States administer and conduct elections each according to their laws and regulations, subject to limited Congressional authority.

The official voter registration rolls in Maryland are the ones maintained and administered by the Maryland State Board of Elections (SBE). The so-called "State Citizenship List" has no legal force

or authority. Furthermore, the executive order offers no clear or defined concept of citizenship in the context of elections. No one knows what standards are being used to make their determinations or findings. Maryland will not change the status or remove any individual voter from its official voter registration rolls based upon that list.

Additionally, the direction to the USPS not to transmit mail-in ballots unless the voter is on the preclear list provided by DHS is contrary to Maryland law. One may not delay the delivery of a ballot. Moreover, the President does not have direct control over the USPS. Any actions to delay, hinder, or prevent the delivery of the ballot will be met with litigation and referral for prosecution from my office.

As stated in previous statements but something that always bears repeating, the right to vote is a sacred right that has been expanded through the sacrifices of many before us. Remember voting is not an entitlement nor benefit program created or established by the government, but a constitutional right embedded in the principles of our nation's foundation, our Constitution and the Maryland Declaration of Rights.

I want to reassure all Marylanders that the Maryland State Board of Elections (SBE) and our local election officials are unwavering in their commitment to maintaining safe, open, secure, and trustworthy elections. Public trust in the electoral process and the election officials who enforce the processes is essential. It is the foundation of our democracy and for any elected government. This is a responsibility that I do not take lightly. It is a privilege and honor to safeguard the right to vote. Their voice will determine who will govern our State and the future of our nation.

We encourage voters to explore all available options to vote to mitigate any concerns such as using web delivery to receive their ballots and returning their ballot to a ballot drop box in their county. Please do not let this executive order deter you from exercising your fundamental right to vote. Make a plan for voting.”

Upcoming Dates and Electoral Information

The deadline to request a web delivery mail-in ballot is June 19. Visit SBE's mail-in voting [webpage](#) for more information on how to request a ballot. Ballot drop boxes are located throughout the State to ensure equal access for all voters. Each ballot drop box is routinely emptied, well lit, and under surveillance to ensure safety and prevent tampering. Mail-in voting will continue to be a safe, convenient and effective way for voters to exercise their right to vote.

For registered voters who do not want to cast a mail-in ballot, there are two other ways to vote in the upcoming election: vote early in-person or vote on Election Day.

Vote Early In-Person: Early voting begins Thursday, June 11 and runs through Thursday, June 18. Early voting centers are open from 7 a.m. to 8 p.m. Find the list of early voting centers [here](#).

Vote on Election Day: To find your Election Day polling place, visit SBE's Polling Place [Lookup](#). Election Day polling places will be open June 23 from 7 a.m. to 8 p.m.

Remember to rely on your State and local election officials as your trusted sources for election information. Visit SBE's website, follow SBE on social media, or contact your local elections office for accurate election information. Report any suspicious information to SBE's disinformation portal.

Dear Washington County Board of Elections Members & Election Director,

On behalf of the Maryland Republican Party, I want to express our sincere appreciation for the continued work of your local Board of Elections in administering fair, transparent, and orderly elections. We share that commitment, and would welcome the opportunity to support your efforts by helping to recruit qualified Republican volunteers who are willing to serve as election judges.

Attached with this note is a letter from our Maryland GOP General Counsel reviewing election judge parity requirements.

One of the key principles that strengthens confidence in our election system is the commitment to partisan parity in the administration of elections. Ensuring that both major political parties are represented at polling places helps reinforce transparency, accountability, and public trust in the electoral process. Both our local party and the Maryland GOP are committed to assist in identifying individuals who are prepared to take on this responsibility and contribute to the integrity of the election process.

Our goal is to establish a clear channel of communication on this and all election integrity related issues. We look forward to partnering with you on this important effort and stand ready to assist.

Thank you again for your service and commitment to this critical responsibility.

Sincerely,
Nicole Beus Harris
Chairwoman, MDGOP

**Re: Republican Election Judge Applicants & Compliance with MD Code, Election Law § 10-201
(Effective October 1, 2025) and Policy 2025-04**

Dear Director DeMarinis:

I am writing to you on behalf of the Maryland Republican Party regarding Republican election judge applicants and their compliance with the above-referenced election laws and policies. Our primary objective is to address the issues and proposals related to electoral parity set forth below.

We wish to emphasize the importance of ensuring fair and equitable electoral processes. There are several key areas where improvements are necessary to achieve this goal. We urge the Board to consider these recommendations seriously and to implement changes that will enhance the integrity and fairness of our elections.

A prime example is the language promulgated in Section 10-201(b)(1), effective October 1, 2025, which states:

“Except as provided in paragraphs (2) and (3) of this subsection, to the extent practicable, each polling place shall have an equal number of election judges, including chief judges designated under § 10-203, from: (i) the majority party; and

(ii) the principal minority party.” Although the statute now includes the phrase “to the extent practicable,” this language does not dilute the obligation. It imposes a duty of affirmative effort and documented good-faith compliance. Parity remains the governing standard.

Where parity is not achieved, the Board must be prepared to demonstrate that it took all reasonable efforts to secure a balanced representation of the Parties. This is crucial for maintaining public confidence in the electoral system.

The limited statutory exceptions, inclusive of the provisions allowing unaffiliated or minor judges when six (6) or more judges are assigned, as well as the forty-five (45) day chief judge contingency, are narrow in scope and do not authorize routine deviation from bipartisan parity standards.

Policy 2025-04 reinforces these statutory requirements by mandating monthly vacancy reporting beginning February 2026, including polling place identification and party breakdown by judge type. This reporting requirement exists precisely to prevent parity deficiencies from persisting unchecked.

We understand the complexities involved in electoral administration and appreciate the Board's ongoing efforts to uphold democratic principles. However, we believe election judge parity is a structural safeguard designed to ensure integrity at the polling place. We trust that each Board will review its staffing assignments, document its recruiting efforts and confirm complete compliance with MD Code, Election Law § 10-201, and Policy 2025-04. We are eager to collaborate with all Boards to ensure strict adherence to the law.

Please feel free to contact me at grobinson@robinsonfirmllc.com should you require further information or wish to discuss these matters in more detail. We look forward to your positive response and to working together towards a more equitable electoral process.

Thank you for your attention to this important matter. Sincerely,

George S. Robinson, IV,

SUBJECT: Ethics Law Requirements for Board of Election Members

Members serving on boards and commissions subject to the Public Ethics Law (Md. Code Ann., General Provisions Article, Title 5) are "public officials," and, for the purpose of board activities, have a fiduciary responsibility to the State and are bound by the conflict of interest provisions of the law. This includes all members of the local boards of elections. The nature of the member's employment and his or her role in that organization will have an impact on the degree of potential conflicts of interest related to board responsibilities. Additional restrictions may be set by local boards or by the State Board of Elections. For purposes of appointments, Election Law 2-301 states that any individual serving as an Election Board member "may not...hold or be a candidate for any elective public or political party office or any other office created under the Constitution or laws of this State, use the individual's official authority for the purpose of influencing or affecting the result of an election, or...be a campaign manager...treasurer...or take any other active part in political management or a political campaign."

Section 5-501 of the Public Ethics Law states that a board or commission member is required to recuse him or herself if the board is considering a matter that would have a specific impact on the member's employer or on an entity in which the member has an ownership interest. A board or commission member is also required to recuse him or herself if the board is considering a matter that would have a specific impact on a qualifying relative, which includes a parent, child, sibling, or a spouse.

Generally, disqualification is not required as to matters in which a qualifying relative or an employer is only generally interested, but recusal is required as to those matters in which the board member's qualifying relative or their employer has some specific and clearly defined interest that is unique, or nearly unique, to it. If that nonparticipation creates a quorum issue, then the board member can participate or act, as long as they disclose the nature and circumstances of the conflict. In these instances, the appearance of a possible conflict of interest can remain even after the board member discloses the conflict to participate. The Commission advises the board that the determination of whether the integrity of the agency will be affected in a negative way is within the board's discretion at that point and beyond the Commission's jurisdiction. There are times when appearance issues cannot be alleviated completely. In those instances, the local board of elections will have to decide how best to mitigate some of those potential appearance issues.

Section 5-502 of the Ethics Law recognizes that persons appointed to boards or commissions may have affiliations resulting in prohibited conflicts of interest. The law allows these individuals to be appointed despite these otherwise disqualifying affiliations provided they file public "time of

appointment” exemption forms with the Commission disclosing the conflict to the appointing authority and the Senate, if confirmation is required. The decision to accept the conflict and make the appointment under these particular disclosure procedures is the function of the appointing authority rather than the State Ethics Commission, although the Commission does have a role in determining the scope of the exemption. The exemption process is available only for **conflicts that exist at the time of appointment** and does not apply to conflicts that develop after appointment. Generally, board memberships on private entities (both for profit and non-profit), even if non-compensated, are considered employment for the purposes of the Public Ethics Law. While private board membership conflicts most often occur in grant or procurement situations, they also may occur in other situations in which people are on professional or trade association boards.

Lobbyists may serve on boards and commissions provided that, within 5 days of the dual status, the member/lobbyist discloses to the Commission their relationships with the state and entities doing business with or before the state, among multiple additional disclosures. Additionally, the regulated member/lobbyist shall update the information required to reflect the lobbyist’s current registrations throughout each reporting period, and, whenever an issue arises within the board or commission related to the disclosed information, the regulated member/lobbyist shall submit a statement, on the record of the board or commission, of recusal from, discussion of, voting on, or any other action required by the circumstances concerning the issue.

Section 5-609 requires members of boards and commissions that are not purely advisory to file annual public financial disclosure statements. Board members generally file the Form 2 financial disclosure statement, which is due annually by April 30th. Initial filings, within 30 days of appointment, and end of service filings, within 60 days of leaving the board, are also required.

This memorandum highlights some of the provisions that will affect all proposed candidates to local boards of elections. This should serve as a resource so that board members are aware, in advance of their appointment, of their limitations and requirements under the Public Ethics Law. The State Ethics Commission may be contacted for advice by any potential or current board members at (410)260-7770 or ethics.public@maryland.gov.
